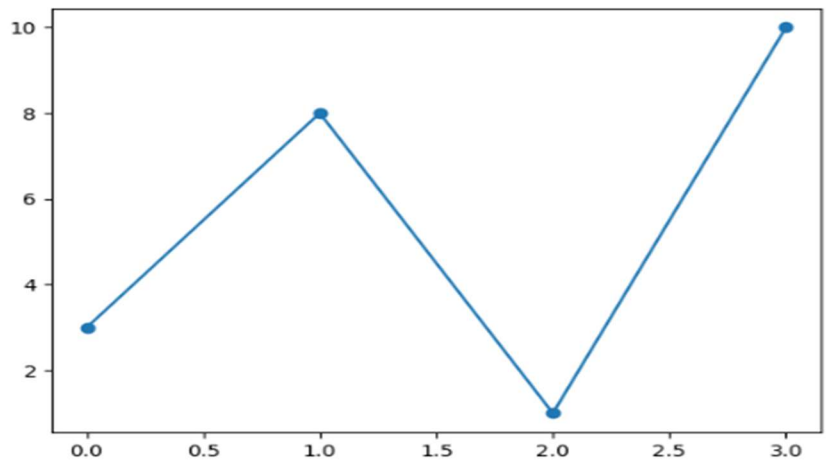
ASSIGNMENT 10

Name:Prathiksha Harish Baleri

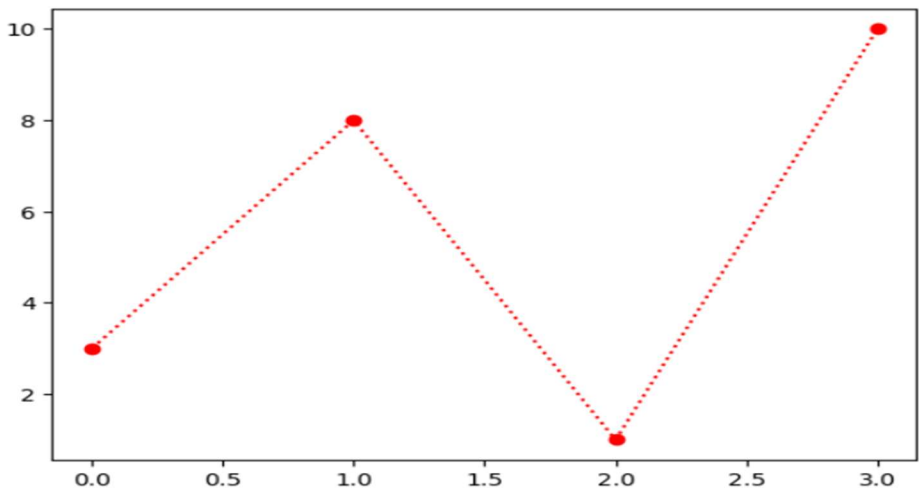
USN:4CB22CB044

Domain:Data science

```
import matplotlib.pyplot as plt
import numpy as np
ypoints = np.array([3, 8, 1, 10])
plt.plot(ypoints, marker = 'o')
plt.show()
```



```
import matplotlib.pyplot as plt
import numpy as np
ypoints = np.array([3, 8, 1, 10])
plt.plot(ypoints, 'o:r')
plt.show()
```



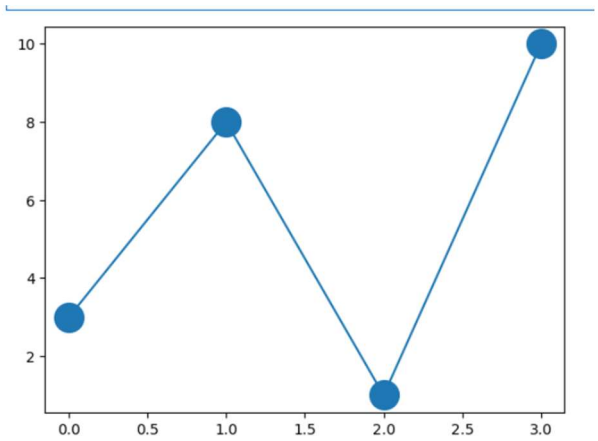
```
import matplotlib.pyplot as plt

import numpy as np

ypoints = np.array([3, 8, 1, 10])

plt.plot(ypoints, marker = 'o', ms = 20)

plt.show()
```



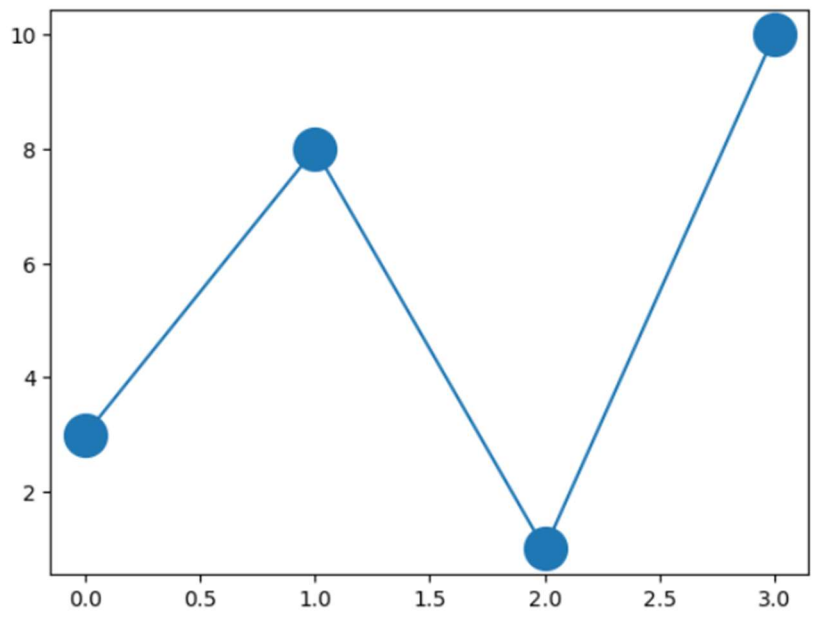
```
import matplotlib.pyplot as plt

import numpy as np

ypoints = np.array([3, 8, 1, 10])

plt.plot(ypoints, marker = 'o', ms = 20)

plt.show()
```



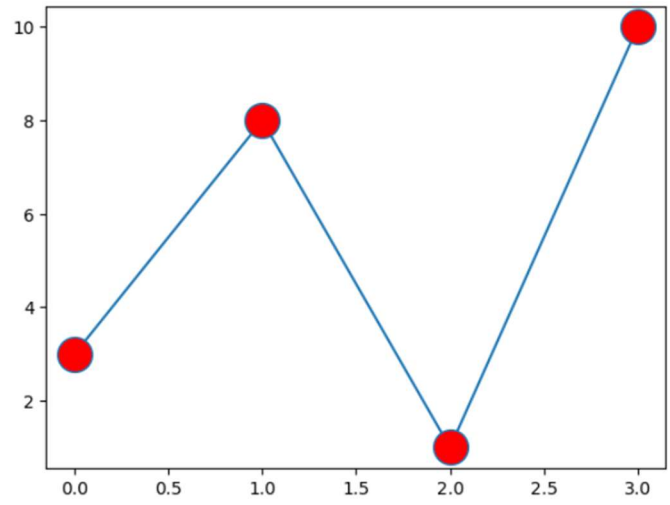
```
import matplotlib.pyplot as plt

import numpy as np

ypoints = np.array([3, 8, 1, 10])

plt.plot(ypoints, marker = 'o', ms = 20, mfc = 'r')

plt.show()
```



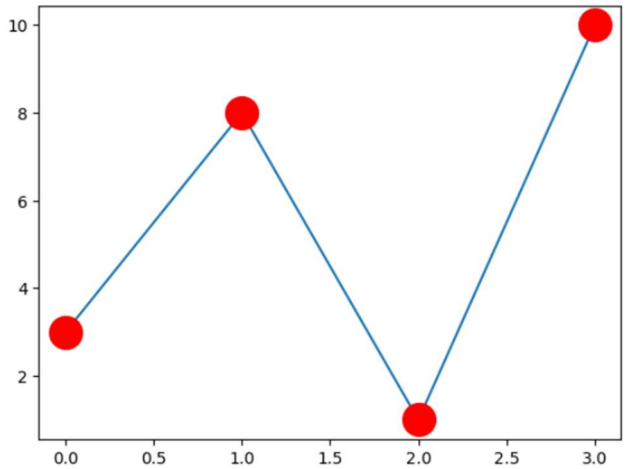
```
import matplotlib.pyplot as plt

import numpy as np
```

```
ypoints = np.array([3, 8, 1, 10])

plt.plot(ypoints, marker = 'o', ms = 20, mec = 'r', mfc = 'r')

plt.show()
```



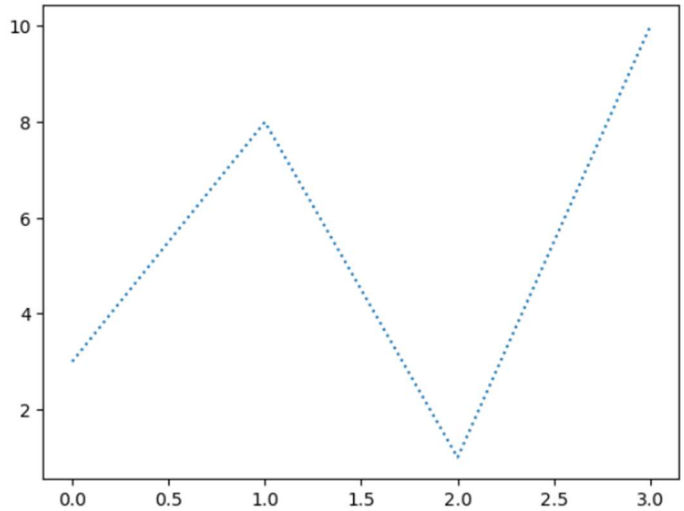
```
import matplotlib.pyplot as plt

import numpy as np

ypoints = np.array([3, 8, 1, 10])

plt.plot(ypoints, linestyle = 'dotted')

plt.show()
```



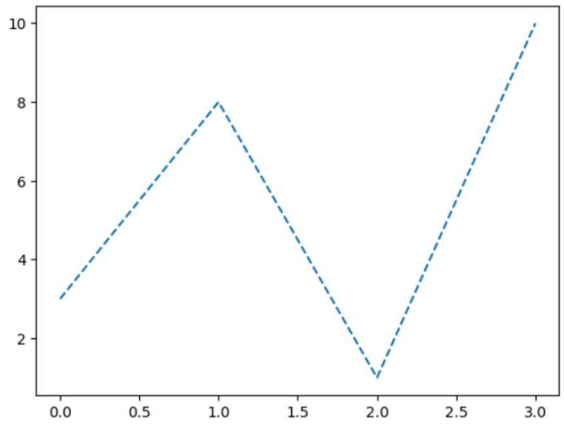
```
import matplotlib.pyplot as plt

import numpy as np
```

```
ypoints = np.array([3, 8, 1, 10])

plt.plot(ypoints, linestyle = 'dashed')

plt.show()
```



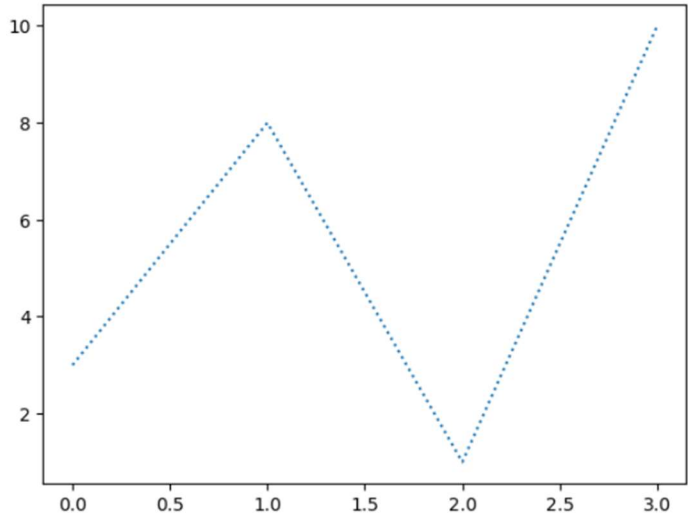
```
import matplotlib.pyplot as plt

import numpy as np

ypoints = np.array([3, 8, 1, 10])

plt.plot(ypoints, ls = ':')

plt.show()
```



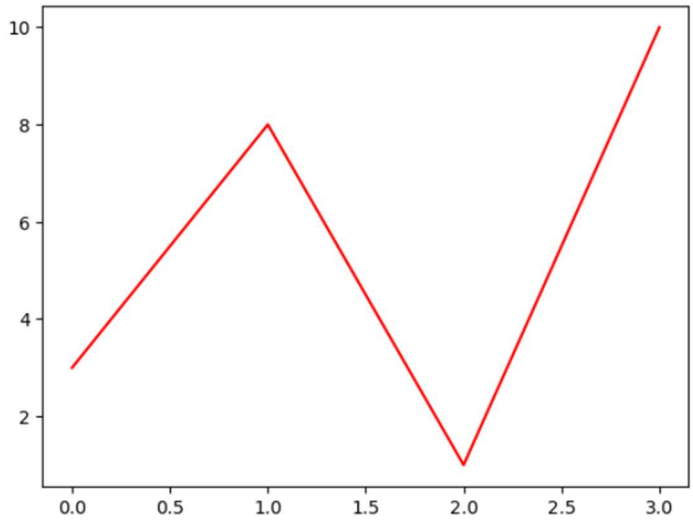
```
import matplotlib.pyplot as plt

import numpy as np
```

```
ypoints = np.array([3, 8, 1, 10])

plt.plot(ypoints, color = 'r')

plt.show()
```



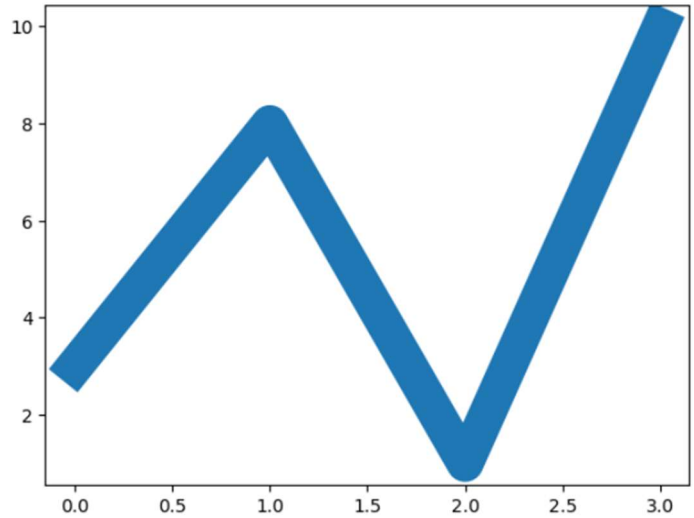
```
import matplotlib.pyplot as plt

import numpy as np

ypoints = np.array([3, 8, 1, 10])

plt.plot(ypoints, linewidth = '20.5')

plt.show()
```



```
import matplotlib.pyplot as plt
```

```
import numpy as np

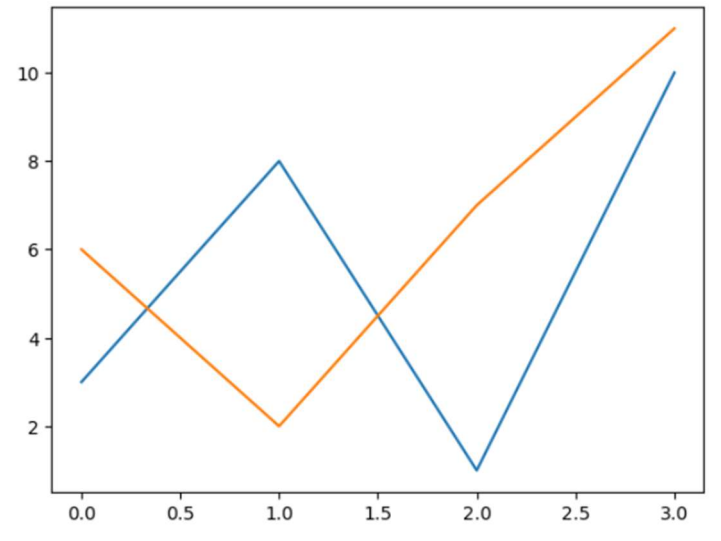
y1 = np.array([3, 8, 1, 10])

y2 = np.array([6, 2, 7, 11])

plt.plot(y1)

plt.plot(y2)

plt.show()
```



```
import matplotlib.pyplot as plt

import numpy as np

x1 = np.array([0, 1, 2, 3])

y1 = np.array([3, 8, 1, 10])

x2 = np.array([0, 1, 2, 3])

y2 = np.array([6, 2, 7, 11])

plt.plot(x1, y1, x2, y2)

plt.show()
```
